

ERCOLE _

IL VASO PROFESSIONALE

THE PROFESSIONAL POT

GRANDI DIMENSIONI, GRANDI PRESTAZIONI

GREAT DIMENSIONS, GREAT PERFORMANCES

ERCOLE è un vaso professionale: resistente, pratico e funzionale.

Il fondo del vaso è rinforzato da guide trasversali, ideate appositamente per poter ospitare le staffe del muletto e per sollevare il vaso da più angolazioni.

Ideale per il contenimento di piante dalle dimensioni e dai pesi importanti.

I modelli più grandi sono particolarmente adatti per l'arredo urbano di piazze, giardini pubblici e altre aree aperte.

ERCOLE is a heavy duty container: durable, practical, functional.

The bottom of the vase is reinforced by transversal guides designed specifically to accommodate the forklift brackets in order to lift the pot from multiple sides.

Ideal for the containment of plants of big dimensions and heavy weights.

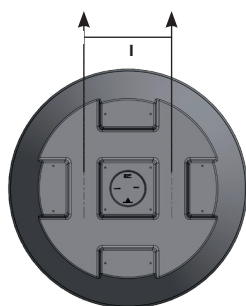

The larger models are particularly suitable for urban furnishing of squares, public gardens and other open areas.
